Gel-Pak®

Protecting the World's Valuable Devices

www.gelpak.com

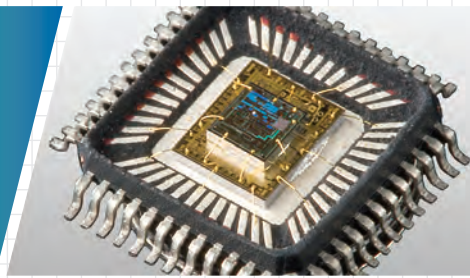

Gel-Pak manufactures a family of innovative Gel-coated boxes, trays, and films. Gel-Pak's products are designed for applications where maximum protection is required during the shipping, handling and processing of valuable devices. Gel-Pak's manufacturing expertise allows the company to quickly customize existing products or develop new solutions to meet ever changing industry requirements.

Quik-Pak™

IC Packages, Assembly & Prototype Services

www.icproto.com

Quik-Pak offers IC packages, assembly and prototype services. The company specializes in open-cavity plastic packages and assembly in 24 hours or less. Quik-Pak provides a full turnkey assembly solution along with wafer dicing, backgrinding, die/wire bonding, remolding and marking/branding. Custom assembly services are also offered for ceramic packages, chip-on-board, stacked die, and MEMS.

TOUCHMARK

THE PAD PRINTING EXPERTS

www.padprint.com

TouchMark provides high quality precision pad printing services to the medical device, diagnostics, and electronics industries. Projects can vary from intricate 360° catheters to multicolor keyboard pads and devices with complex shapes with critical registration requirements. The company's cleanroom printing facility enables it to handle prototypes ranging from small clinical trials and engineering lots to large production volumes.

UltraTape

Adhesive Tape for Critical Environments

www.cleanroomtape.com

UltraTape manufactures high quality adhesive tapes and labels for the Semiconductor, Pharmaceutical, Aerospace, Medical and Electronics industries. The company's cleanroom manufacturing facility assures particle-free and residue-free adhesive tapes to meet the specifications of critical applications.

DELPHON

Merging Innovative Technologies

www.delphon.com

Delphon's goal is to provide materials and services for high value technology components and leading-edge medical devices. The company serves a wide range of markets including the Semiconductor, Medical Device, Opto-Electronics, MEMS, Solar, and Defense industries.

Quality and reliability are essential to these industries and Delphon's expertise in cleanroom processing along with ISO 9001:2000 certification assures that even the most stringent customer requirements are met.

Delphon's companies have been providing unique materials and services for over 25 years and continue to develop custom solutions for critical applications by merging innovative technologies.
